WHY WE NEED YOUR SUPPORT

Tragically, suicide is the leading cause of death for young people under the age of 25.

In Western Australia at least one young person is lost to suicide each week, and thousands more quietly suffer the despair that anxiety, depression and self-harm brings to their lives.

With evidence suggesting that three in four adult mental health conditions emerge by age 24 and half by age 14, Youth Focus is determined to broaden its service offering and connect more youth with life-saving care.

However, with only a small percentage of our operating funding sourced from government, we rely heavily on the generous support of the corporate and community sectors to maintain delivery of our free life-changing mental health services and programs.

Over the past 16 years, the Youth Focus Night of Nights has established itself as one of Perth's most anticipated charity events. While last year's event raised almost \$400,000 to support the vital work of Youth Focus and maintain its free services, the event also plays a key role in raising awareness of youth suicide and mental health within the Western Australian community.
